

WEBINAR

“Connected home: Objects talking to each other”

NETATMO

Netatmo is all about the Smart Home!

- Manage your house's heating from our connected Thermostat.

- Detect intruders and pesky animals wandering your garden with our cameras embedding artificial intelligence and image processing.

**But how do we do all that?
How do we integrate into the growing
ecosystem of connected objects?**

Tuesday 22nd May at 11am CET

Confirm your participation to

jobs@netatmo.com

- Control your home's lights and electrical sockets using our products.
- Access the largest personal weather station network on earth from our world map of connected sensors.

Please send us your CV or a link to your LinkedIn Profile to jobs@netatmo.com
