

GROCERHERO NEEDS YOU!!!

GrocerHero, a start-up based in New York is looking for talented developers to join our All-stars team in Madrid!

Are you capable of solving complex problems? If you are talented, hard-worker and want to learn from the best, we have a position for you!

1) IOS/ANDROID DEVELOPERS

We need engineers passionate about iOS and Android and capable of developing an app that requires vector graphics and 2D interface dynamics. If you show great skills you could become Lead iOS/Android Developer

2) JAVA/BACKEND DEVELOPER

We look for a talented developer eager to learn about cloud infrastructure, software architecture and agile. You must master Java and have knowledge of Linux and vmware

OUR OFFER:

Be part of the international team developing the app that will disrupt one of the largest consumer sectors in the world. Learn from the best engineers in the country how to design and build an app for massive consumption.

Starting November/December

Send your CV or LinkedIn to fran@grocerhero.com
