CICLO DE CHARLAS ARA 2011

En el contexto de lo que supone la iniciativa del grupo ARA, una apuesta por implantar una línea en inglés en el Grado en Ingeniería Informática, la ETSINF propone un ciclo de conferencias impartidas por profesionales de diferentes ámbitos, con el fin de ofrecer una visión del mercado laboral internacional a nuestros futuros titulados.

Las conferencias están abiertas a todos los estudiantes de la ETSINF y tendrán lugar en el Salón de Actos de la escuela.

Estudiantes de GRADO: Reconocimiento de créditos por actividades universitarias (pendiente de aprobación por la UPV).

Estudiantes de II/ITIS/ITIG/LD: Reconocimiento de 0,5 créditos de libre elección por asistir al ciclo completo de charlas.

"SMARTPHONES AND THEIR APPLICATIONS"

JAVIER ARIAS GONZÁLEZ

GOOGLE UK

Javier Arias is Senior Sales Engineer in Google UK. The number of cellphone users that own a smartphone is growing fast. Two platforms, Apple's iPhone and Google's Android represent most of that market now. Android is second, but it may soon become the leading platform for smartphone applications. Apps market is booming a new economy and a new breed of developers. Would you like to join in?

February, 3rd 2011. 12:30h.
