

Join „stealth startup“ in Berlin, Germany

Android Developer

You love mobile-apps. And you love Android. For you, it's all about building the best apps and provide input to develop unique User Interface experiences. You believe in the Platform not because you simply know Java. You want the challenge and show your potential!

Focus

- Create our Android Client.
- Design, development and Testing.
- Join forces with our designers in building awesome interfaces.
- Co-operate closely with backend-developers on architecture and API.

Talent

- Building the perfect Android-app is all you live for.
- Experience & previous application development for Android.
- Strong Java-experience.
- Well rooted in the mobile developer community.
- Ability to quickly master new technologies with creative problem solving skills.
- Experience with travel industry, payment services or game development is a plus.
- Familiarity with other touch based mobile device development is a plus.
- Ability to work in a fast paced environment and with tight deadlines.

What we offer

- Creating a really, really great & revolutionary product: Changing the world of travelling.
- Working environment in which your contribution can – and will – make a difference
- Fun place to work, located in one of Europe's most dynamic capital

APPLY NOW!
