

# Curso de Certificación Oficial

## Certificación en Gobierno de TI

### I AM A TOP PERFORMER

"Being a **Certified in the Governance of Enterprise IT® (CGEIT®)** professional demonstrates that I am capable to effectively manage and govern enterprise IT, understand this complex subject holistically, and can therefore enhance value to my enterprise."

My role within our global information and technology division is to provide cost effective assessment, implementation and management solutions to improve control and governance over enterprise IT.

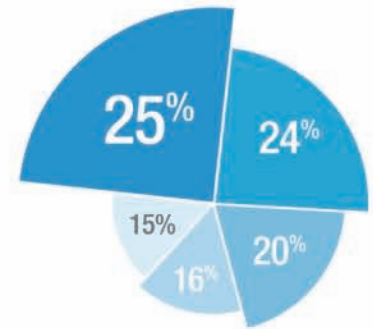

My CGEIT designation gives me the credibility to address critical issues around governance and strategic alignment such as regulatory requirements, best practices

and privacy risks. The recent quarterly *IT Skills and Certifications Pay Index™ (ITSCPI)* from Foote Partners ranked CGEIT as one of the IT certifications that gained 10% or more in market value.

*Become a CGEIT and demonstrate your ability to successfully manage and govern enterprise IT.*

*I am a CGEIT*
