

Curso de Certificación Oficial Auditor Certificado de Sistemas de Información

I AM A LEADING CONTENDER

"As an IS audit professional, I recognized the need to boost my credentials to gain a competitive edge. With the support and encouragement from my employer, I studied and received my **Certified Information Systems Auditor® (CISA®)** designation from ISACA."

With the rise of new technologies and the increased sophistication of hackers, I need technical expertise to stay on top of the most current trends. CISA after my name proves that I have the skills to leverage standards, manage vulnerabilities, ensure compliance and institute controls.

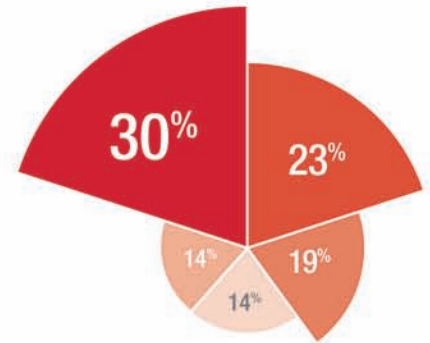

Furthermore, my CISA designation is a globally recognized cornerstone certification for IS audit control, assurance and security professionals. The recent

quarterly *IT Skills and Certifications Pay Index™ (ITSCPI)* from Foote Partners showed that holding the CISA can increase your pay by up to 12%. Various studies continue to rank ISACA certifications among the most sought after and highest paying IT certifications.

Gain the CISA certification to prove your IS audit expertise and enhance your career.

I am a CISA
