Internship Opportunities at the International Computing Centre (ICC)

<https://www.unicc.org/>

Reference: ICC/19/VAL/i004

Position Title: Network Intern

Number of Positions: One

Section/Unit: OPBI

Internship Duration: 6 months

Target Start Date: 01 September 2019

Duty Station: Valencia, Spain

Remuneration: 825 Euros net per month (7.5 hours per day, Monday to Friday)

About the ICC

The International Computing Centre (ICC) is the leading provider of Information Technology and Communications (ICT) services within the United Nations System. Over the last four decades, ICC has been continually expanding the services it is providing to its Partners in various parts of the world, and in various areas of ICT.

As a part of the UN family, ICC espouses the same values that the UN embraces. As a service provider, its core values are unmatched and underlie its continued growth: trust, customer-focus, accountability, understanding cross-cultural differences, excellence, innovation and teamwork. This combination has made ICC the preferred provider of shared ICT services within the United Nations System.

ICC is committed to delivering reliable ICT services driven by best practices. With its world-class technology and state-of-the-art infrastructure, together with the vast cross-domain experience of its very knowledgeable staff, ICC is always ready to offer UN-friendly shared solutions to the United Nations System of Organizations.

Purpose of the Position

The selected candidate will have the opportunity to acquire hands on experience and direct exposure to networking and telecommunication technologies. This is an excellent opportunity to be part of a dynamic, talented team in a multicultural and international environment.

Summary of assigned duties:

ICC is looking for an Intern who will work under the overall guidance and direction of the Chief Business Solutions Section in our Valencia office. The responsibilities will include:

- Assist and participate in the Operation and Business Infrastructure (OPBI) projects, particularly in WAN routers deployment for our clients.
- Perform hands-on network configurations.

Work Experience:

Applicants do not require prior professional work experience but they must have the following functional and technical skills:

- Basic technical knowledge of TCP/IP networking and protocols.
- Basic technical knowledge of Cisco routers and switches commands.
- Basic knowledge of common network services and protocols - like HTTP, DNS, NTP, SYSLOG, SIP.
- Ability to use Microsoft office applications (Word, Excel, Visio).
- Good written and verbal communications skills.
- Good interpersonal skills and the ability to work in a multicultural environment.

Education:

To qualify for this internship, the applicant must:

- Be at least 20 years of age.
- Be enrolled or have been enrolled in the last 6 months in a computer, telecommunications, telematics or other science oriented under-graduate or graduate school program.

Competencies:

- Communication:
 - Speaks and writes clearly and effectively.
 - Listens to others, correctly interprets messages from others, or asks questions to clarify, and responds appropriately.
 - High level of personal integrity, as well as the ability to handle confidential data.
- Teamwork:
 - Solicits input by genuinely valuing others' ideas and expertise; is willing to learn from others
 - Places team agenda before personal agenda
- Planning & Organizing:
 - Allocates appropriate amount of time and resources for completing work
 - Monitors and adjusts plans and actions as necessary
 - Uses time efficiently
 - Able to deliver quality results

Language:

Fluency in English is required (verbal and written). Fluency in Spanish is desirable.

To Apply:

Apply through the ICC web page <https://www.unicc.org/>

*** Female candidates are encouraged to apply***
