

Description

GRADUATE PROGRAM SPAIN - Junior Microsoft Dynamics 365 Consultant (m/w/d), CRM or ERP WITH COGNIZANT FROM JUNIOR TO PROFESSIONAL

Cognizant provides consulting services to clients for various business segments and across geographies. Cognizant is oriented to provide roadmap and enhance client value proposition to address business issues, deriving enhanced value optimization and effectiveness. The Microsoft Business Group of Cognizant includes thousands of strong consultants spread across Americas, UK, Europe & ME and India. Cognizant is Gold Certified Partner of Microsoft and is a co-development partner of Microsoft for key initiatives. Cognizant offers full spectrum of services around Dynamics 365 CE/F&O product, including:

- Technology Consulting & Advisory
- Implementation Services
- Integration and Data Migration
- Business Consulting & Advisory
- Support
- Testing
- Digital
- Accelerators/Frameworks

The MS Dynamics practice is rapidly growing in Spain and is looking for new talent to strengthen and support this growth.

As a Junior Microsoft Dynamics 365 Consultant you will become part of our Enterprise Application Services (EAS) team, which offers our customers a whole range of IT services across many industries. The associated global Microsoft Business Unit deals, among other things, with Microsoft Dynamics 365, one of the most innovative CRM / ERP platforms in the digital age. You will work together with experienced Cognizant employees on a project and gain practical experience. Among other things, you will learn how to analyze business processes, define requirements, create functional designs and configure and implement the Microsoft Dynamics 365 Customer Engagement or Finance & Operations system.

Your tasks

- Advising companies on the analysis and optimization of their customer relationship management or enterprise resource management
- Support of the digital transformation of the business processes in the areas of marketing, sales, service or areas of finance, supply chain management, retail, operations
- Development of innovative and tailor-made CRM or ERP solutions
- Adaptation / customizing of CRM / xRM or ERP solutions
- Training in technical CRM or ERP solutions: in Microsoft Dynamics 365 CE or F&O

What we offer

At Cognizant you will be part of the success story of a hidden champion in the IT industry. Here you define the digital future. In order to promote your development and career opportunities at all times, you will be provided with both a buddy and a mentor during the 18-month program. Constant training develops your skills and enables you to have quick customer contact.

The Graduate Program is structured as follows:

Onboarding

Together with all graduates, you start your career at Cognizant with several weeks of intensive training in Spain or virtually. There you will get to know our history, corporate culture, products and processes and take part in numerous agile and soft skill trainings. At the start on site, you will get to know Cognizant and your team better in the first few days.

Meet the Business

Now you start as part of your project team in the project business of Cognizant and actively participate in the implementation of innovative state-of-the-art solutions. Of course, you will be supported and promoted within your department.

Cognizant Academy

During the 18 months, a variety of training courses and courses are available from our own academy to support your development and career goals in the company.

Social Networking

During regular Connect Days and Social Get Together events, you will exchange ideas with other Spain and European degrees, managers and executives about your experiences, interests and challenges.

You bring that with you

- You have a bachelor's or master's degree with a technical context and / or one of the following minor subjects: computer science, business informatics, electrical engineering, management information systems, or similar.
- Confident individual and the ability to communicate clearly
- Spanish and English
- You are interested in technology and digitization topics and their integration into the CRM strategy
- You are not afraid of problems and are quality-conscious
- You enjoy working in international teams

Sounds good?

Then submit your Spanish or English-language application online now. Our Graduate Recruiters antonio.ocanagonzalez@cognizant.com are available to answer any questions you may have.
